As part of the Lamoille County Planning Commission's Regional Plan Amendment-Preliminary Review submission, the following municipalities in the County are requesting or considering Tier IB status:

- Hyde Park (for North Hyde Park) (requesting)
- Stowe (requesting)
- Morristown (requesting)
- Wolcott (requesting)

Attached please find the Municipal Request Forms for the Tier IB Designation Areas and the draft Lamoille County Future Land Use Map that includes Tier IB eligible Areas. The following provides a summary of the proposed Tier IB Designation Areas.

North Hyde Park:

The Town of Hyde Park is requesting Tier IB status under Act 250 for the Village Area and the Village Center in accordance with the Act 181 future land use mapping methodology.

Stowe:

The Town of Stowe is requesting Tier IB status under Act 250 for the majority of the Downtown Center and the mapped Village Center along Route 108 in accordance with the Act 181 future land use mapping methodology. This Tier IB request follows the existing Stowe Zoning Regulations and where the Town anticipates growth in future residential and commercial development.

The Future Land Use Map depicts Downtown, Village Center, and Planned Growth Areas that are larger than the Town of Stowe's Tier 1B request. Stowe's existing water/sewer infrastructure faces capacity limitations and other challenges. The lower village wastewater pump station is near the end of its useful life and approaching design limits for capacity during high flow events. The Town's water system will need to secure and develop a new drinking water source. Key intersections on Route 108 also experience significant delays and unfavorable volume to capacity ratios during peak season. The Town requires a partial Tier IB eligible area while it works to implement the needed upgrades to its water, wastewater and transportation

infrastructure. Much of Stowe’s “Planned Growth Area” not included in the initial Tier 1B request contains many properties subject to legacy Act250 permits. Finally, much of the recent development in Stowe has consisted of high-end housing and/or second homes. The Town is conscious of the need to use limited infrastructure capacity to support the need for modest, year-round residences that is affordable to the community’s workforce. As such, the Town of Stowe is working to develop local tools to address this concern before pursuing Tier IB in the full eligible area.

Morristown:

We anticipate prior to the final Regional Plan Amendment submission the Town of Morristown will request Tier IB status under Act 250 for the Downtown Center and Planned Growth Area in accordance with the Act 181 future land use mapping methodology.

Wolcott:

The Wolcott Planning Commission has recommended that the Selectboard consider a request for Tier 1B status of the portion of the Town’s Village Center area that will be served by the proposed community wastewater system and located outside of the 100-year floodplain. The Selectboard will now evaluate Tier 1B statues. We anticipate the Town will make a formal decision prior to prior to the final Regional Plan Amendment submission.

For questions regarding Tier IB Requests included with this preliminary submission please see key Regional and Municipal Contacts below:

The following additional communities include mapped eligible Tier IB Areas but are not requesting Tier IB status as part of this preliminary review submission of the 2025 Lamoille County Regional Plan Amendment.

Elmore - eligible for Tier IB status in the Village Center where municipal water exists.

Hyde Park Village - eligible for Tier IB status in the mapped Village Center where municipal water and sewer exists.

MERP: Bob Tina attended to discuss the MERP Grant received by the Town of Hyde Park and related projects. The total grant was \$329,867.12 and approximately \$9,000.00 has been spent so far. Bob Tina referred to 2 projects for insulation at the GVH and HAVC work for mini splits at the Library and Municipal Building. There was 1 mini split installed in May 2025 at the library due to elevated temperatures on the top floor. Bob Tina contacted most insulators in Northern Vermont and received 3 quotes in the amounts of \$12,800.00, \$17,600.00, and \$42,000.00. It was noted that the lowest bidder submitted an incomplete bid and was unresponsive when followed up with and there were additional companies that Alex Goddard and Bob Tina met with and deemed incompatible for the project. Bob Tina recommended Northeast Insulation in the amount of \$17,600.00.

Bob Tina also discussed HAVC, noting something will be needed to present to contractors and CX Associates is available and familiar with this work and provided a quote not to exceed \$4,575.00. CX Associates would then provide a document that can be sent to contractors for the end of winter. There are also windows that need to be replaced at the library, including 2 on the historic side, and a scope for those windows will also be performed.

Motion made by Savannah Droney to go with Northeast Insulation, seconded by Lance Van Vogelpoel. Voting: All in favor, 0 against, motion passed.

Some Selectboard members attended the meeting and received feedback from the Planning Commission that 5/6 of the Planning Commission Members are in favor of ACT Tier 1B. It was noted there will not be a lot of changes immediately as there are still multiple precautions and checkpoints in place at the State and Municipal levels.

Motion made by Savannah Droney that the Town of Hyde Park enters into ACT 181 Tier 1B and authorizes Chasity Fagnant to sign the resolution, seconded by Lance Van Vogelpoel. Voting: All in favor, 0 against, motion passed.
