To the LURP,

As a 25 year commissioner on the Rutland Regional Planning Commission representing the town of Mendon, I encourage the LURB to accept the 2026 Rutland Regional Plans Future Land Use Map as submitted. This is the third time I have worked on the rewrite of our regional plan. and serving on the Executive/Finance Committee, we have clocked in over 90 hours of volunteer time on this plan. Having been involved in politics for years, I can attest that Rutland county is very diverse politically from east to west. The RRPC staff spent hours with the Selectboards and Planning commissions from each town listening to their concerns regarding intentional local planning for growth. Understanding their needs to be consistency in the map, there also needs to be flexibility at the same time due to our diverse county. Please consider accepting the Future Land Use Map as presented.

Regards,

Larry Courcelle
RRPC Commissioner representing Mendon
